## IS AN ILLUSTRATION AND DESIGN STUDIO

Ships within the USA

Crispy Doodles is an illustration studio that creates picture books and activity books along with art prints and printable activities for children.

Delzin founded Crispy Doodles to surround children with crisp happy doodles that encourage conversation and learning.

*"I love the products by crispy doodles. They are fun and make amazing gifts. As a small business not only do they care about other initiatives but also the environment which is a huge plus. My kids enjoy coloring with friends and I was very impressed by how their packaging is 100% recyclable."*  
 – Rubina, Happy customer

At Crispy Doodles we love creating products that delight and engage as well as illustrations that allow children to see themselves represented. Our illustrations and books are high quality and ship quickly.

Our goal is to create art for children that builds self-confidence while they pursue activities, challenges, and dreams that they love.

We sincerely believe in good thoughts, good words, good deeds and support simple acts of kindness, to self, to people around us and to the Earth.
