CREATES BOOKS FOR PARENTS & CHILDREN

Ships Worldwide

Raised on the borders of Kuwait and India, Aditi always felt like the Girl from Nowhere. To that end, she founded RWC in 2017, a collaborative online and in print publication that is powered by cultures. As an author and self-publishing guru, she is now one of the leading voices on self-empowerment. The harmony of concept, heritage, and science make RWC's articles and books perfect for everyone raising global citizens.

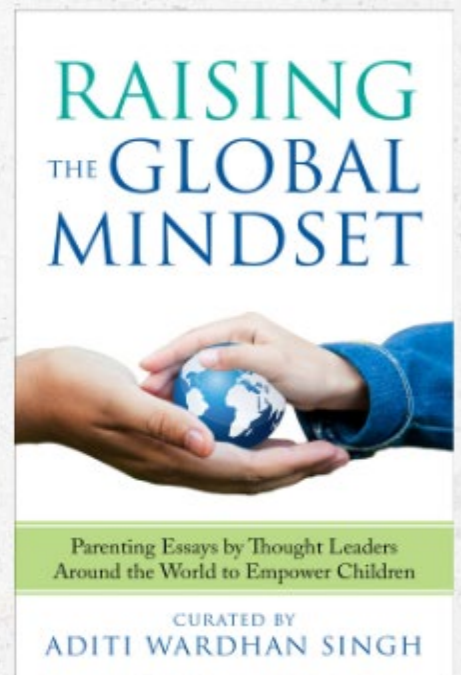

Lesson plans and Printables for the books available on the website.

“

Complex topics explained in simple ways that every child can understand. Wonderful foundation of science and reason.

”

“

Raise children with a better sense of identity and cultural, racial and gender sensitivity.
