## CREATES KIDS BOOKS / INTERACTIVE BOARDBOOKS

Books ship to India, USA, UK, Singapore, Australia

T4Tales revives the magic of Indian stories. Our books help parents introduce their mother tongue to children in their early years, through interactive story books with English transliteration. Simple, easy to read and illustrated in a whole new format, T4Tales offers books ranging from nursery rhymes to mythological stories retold in a manner that's more relatable to the families of today.

*"We have picked up a few multi-lingual books but the music, tone and select songs in this one still keep him engaged. From reaching the English lines of the song he has now graduated to reading the Hindi version, and I couldn't be more happy!"*

*– Amazon Review*

We bring kids stories and rhymes to life with interactive bilingual board books. Our books are written with the added advantage, that parents or care givers who can speak the Indian language, but may not know how to read/write it, can still teach children how to speak that language!

T4Tales has published 5 books till date, across Hindi and Tamil. Four are exclusively penned by Pridhee and illustrated by renowned illustrator Alicia Souza. 1 more book has been authored by Alankrita Amaya. T4Tales soon plans to introduce books in other languages like Gujarati.

Each book by T4Tales is produced using sustainable printing materials and the quality of illustrations is at par with books published by international publishing houses. [Bring home a T4Tales book today!](#)
