*"Language is the roadmap of a culture. It tells you where its people are from and where they are going."*

- Rita Mae Brown

Whether it's a set of our primers for your bookworm or posters for their playroom, our language products will make a seamless addition to your littles' daily routines.

Extend the learning with one of our bilingual wooden toys, where your little one will begin analyzing the world around them in their native languages.

Our thoughtfully created Emotions Peg Dolls present eight primitive emotions in Gujarati, Hindi, or Spanish with an English translation and feature brown skinned people - a key component in helping children feel seen and acknowledged as they develop an understanding of their experiences with emotions. From representation to role playing, they add limitless value to your child's collection!
